## Croatian Speed Dating Event!

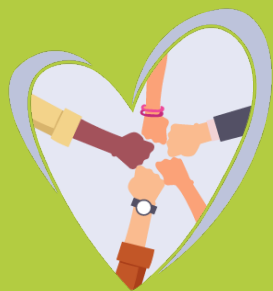

### Croatia

On April 5th, 2023, a job speed dating event of the Go remote project was held in Croatia under the leadership of the Local development agency Pins. Speed dating presents 1:1 interviews between motivated job seekers and employers. Each conversation lasts 5 minutes - just enough time to figure out if you're on the same wavelength.

In addition to the participants of the training for Digital Media

Officer and Software Tester, many other young job seekers joined the event.

The event took place on the innovative and interesting GatherTown platform; you can see how it all looked in the photos. Employers as well as jobseekers were very satisfied with the whole event and many of them commented that the mentioned platform was very interesting and that this way of finding a job/employee should be used more often.

## The Partnership

## WHATS NEXT? with GoRemote

We have started our engines to reach out to more young mothers, and other target groups internationally.

Digital Marketing Course, has started to plan the International Digital Marketing Training Course for October 2023.

New campaigns together with the partnership, more events, more trainings!

The IDM will consist of new Innovative training modules using AI, live sessions each week and some guest from various specializations.

Cyprus as lead of the International Go Remote of the International

*The "Go remote: Unlocking the potential of remote job opportunities!" project benefits from a €1.168.039 grant from Iceland, Liechtenstein and Norway through the EEA and Norway Grants Fund for Youth Employment. The aim of the project is to reduce youth unemployment in Europe.*
