From Job Speed Datings, to Trainings and Festivals!

Latvia

In September, Visas Iespejas was actively engaged in various activities to support its members' professional development and networking.

The organization conducted mentorship training sessions, with the training for 17 mentors being led by Reinis, a highly experienced and dedicated mentorship trainer. These sessions equipped its members with valuable mentoring skills and knowledge-sharing

opportunities.

Additionally, two speed-dating events were held, catering to those interested in data-related roles and digital project management, facilitating connections with potential employers and mentors.

Moreover, "Visas Iespejas" ran a campaign to promote upcoming trainings, ensuring that members were well-informed about the opportunities available.

Darta worked with trainers to ensure the commitment to

delivering high-quality educational experiences and fostering a thriving professional community. These initiatives collectively underscore Visas Iespejas' dedication to empowering its members and enhancing their career prospects.

Bulgaria

Our second Job speed-dating event took place on the 12th of September. In the two hours of Career Teetings Two we saw that all participants were having meaningful conversations, smiling behind their screens.

We are currently preparing for the next Digital Marketing Training! We will have international participants, expanded topics on AI tools, design and other details of the marketing process. We are excited for the training to start on the 25th of September.

Career meetings took place on June 22nd and we had a great time introducing companies to participants! Everyone was so engaged in the interview conversations that we gave them 10 minutes per meeting and several of the companies continued the communication after the event.

Our summer Digital Marketing and Social Media Training was a blast! In between beach days and mountain hikes we met for eight consecutive weeks and learnt the fundamentals of Digital Marketing.

Croatia

Local development agency Pins is preparing the 3rd round of local trainings. The topics for which there are marketing campaigns, and we are currently very satisfied with the response, are Digital Marketing and Bookkeeping. We

decided on Digital Marketing for the third time because there has always been great interest in the said training. As for bookkeeping, by researching the job supply and demand market at the local level, we come to the conclusion that this is another excellent topic for training young people. Also, training for Web designers is announced, and we are looking forward to international training in English for Digital Marketing.

Cyprus

One Terrene International had participated in this years NGO Fair "UpToYOUth 2023 Festival" in Acropolis Park in Nicosia, where we Go Remote events of Speed Dating and open registration for the upcoming International Digital Marketing with the use of AI tools was available. OTI was at stall 13 where youth could scan a QR code and immediately register for the

course.

The International Digital Marketing Course with the use of AI tools for beginners. will commence this Monday! Registrations are now closed.

Participants are expected to explore chatGPT, Generative Image AI Tools, Generative Video AI tools, Ethics & Copyright aspects about AI technologies.

The online course which consists of 5 LIVE ZOOM interactive sessions, will be on the 2, 9, 16, 23 & 30 of October 2023 at 17:00 (Eastern European Time (EET))

The course will be in English.

Participants will have the opportunity to meet and interact with young people from around Europe as this year the training will have a more broad European Dimension.

Amongst the eligibility criteria is the age, and additional target group characteristics such as young parent, in education or employment or both and other.

With successful completion of the course, participants will get a certificate.

A second certificate is available if they also follow the asynchronous learning through the available LMS platform provided by OTI.
